

AVAILABLE FOR RENTALS!!!

ANTONOV AN-32 AIRPLANE

The Ilyushin AN-32 (NATO reporting name: Cline) is a twin-engined turboprop military transport aircraft.

The AN-32 has excellent takeoff characteristics under tropical and mountainous (high-altitude) conditions, including hot climates (up to + 55°C) and from the mountain airfields (up to 4,500 m height) where hot or thin air hampers the power plant's capability. With this capability, the aircraft is suited to be a multipurpose aircraft with medium tactical military transport roles as well as being used in civil commercial flying.

Operating as a cargo transport over the short and medium range air routes, the An-32 is able to air-drop cargo platforms on pallets. The aircraft has also been used as a passenger-only aircraft, ambulance variant, firefighter and for sky-diving or paratroop roles.
